## DIVIDING DECIMALS

### COMPLETE THE EQUATION

Identify which component is missing from each equation: "Dividend," "Divisor," or "Quotient." Then solve for the missing number to complete the expression.

1. ....  $15.75 \div 3 =$  .....

2. ....  $93.45 \div$  .....  $= 18.69$

3. ....  $\div 4.30 = 8.60$

4. ....  $259.57 \div 20.2 =$  .....

5. ....  $233.28 \div$  .....  $= 96$

6. ....  $\div 3 = 25.12$

### WORD PROBLEM

Write your own word problem to correspond to the following equation. Then solve it while also showing your work.

**EQUATION:**  $51.15 \div 5 = ?$

**WORD PROBLEM:**

.....  
.....  
.....

**SOLUTION:**

.....  
.....
