## Writing Algebraic Expressions

Express each phrase as an algebraic expression.

Enter answers  
in text boxes.

1. 34 times a number $y$	2. quotient of 38 and a number $h$
3. a number $z$ minus 36	4. subtract a number $u$ from 39
5. 45 plus a number $a$	6. difference of a number $w$ and 13
7. 24 less a number $m$	8. 37 divided into a number $b$
9. 25 decreased by a number $e$	10. 32 divided by a number $p$
11. add 35 to a number $c$	12. sum of a number $j$ and 8
13. a number $v$ less than 14	14. 16 increased by a number $s$
15. product of 6 and a number $t$	16. 15 more than a number $d$
17. take away 40 from a number $r$	18. a number $g$ multiplied by 44
19. add 47 to a number $q$	20. 28 decreased by a number $k$
21. difference of a number $f$ and 7	22. quotient of a number $n$ and 33
23. 19 minus a number $x$	24. 41 plus a number $d$
25. a number $k$ increased by 18	26. product of 21 and a number $y$
27. a number $t$ times 20	28. a number $j$ divided by 22
29. a number $r$ less than 2	30. a number $n$ less 3
