

Name: _____

The Globe

Directions: The globe is a 3-dimensional model of our planet Earth. Identify and draw lines to the globe's components and answer the questions.

lines of latitude

north pole

equator

hemisphere

lines of longitude

south pole

1. Looking at a real globe, locate your country. What is the name of your country and in what hemisphere is it found?

2. What do you notice about how a globe sits on its stand?

3. Why do you think it is made this way?
