

Read Aloud Google Chrome Extension Installation

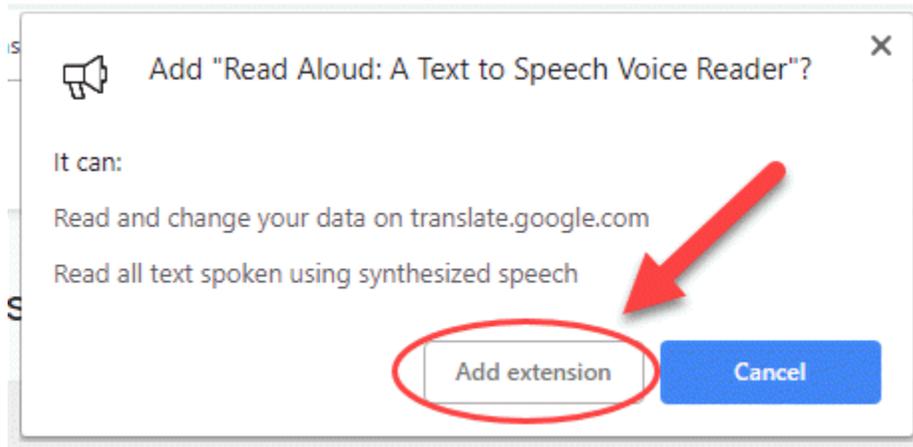

1. Open the Chrome browser and go to the following link:
<https://chrome.google.com/webstore/category/extensions>
2. Near the upper left side, you will see a *Search* field. Type *Read Aloud* in the search box and press *Enter*.

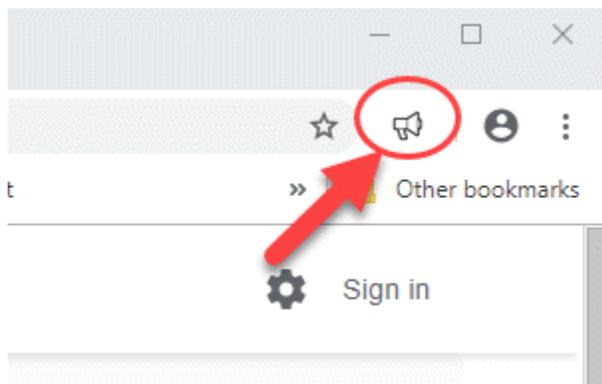

3. Find the *Read Aloud: A Text to Speech Voice Reader* extension by Isdsoftware.com. Click *Add to Chrome*.

4. Choose *Add extension*.

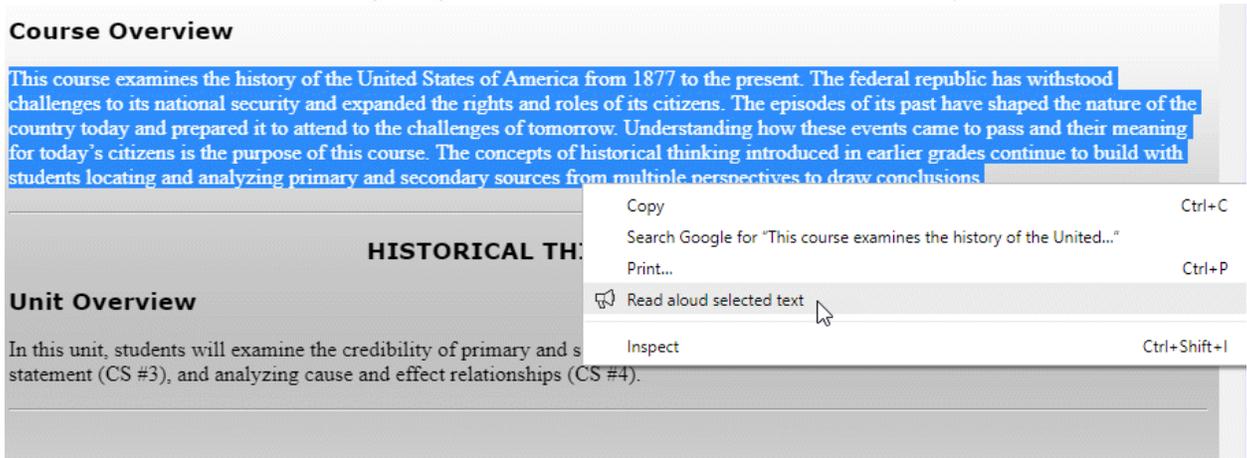

5. You will see the Read Aloud megaphone icon appear to the right of the address bar in the Chrome browser.

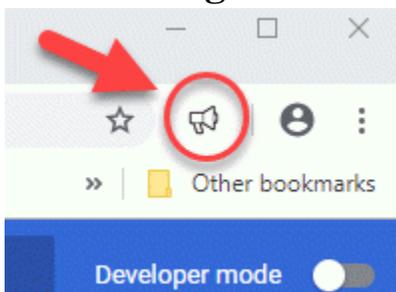

6. The Real Aloud extension is now installed. To use the Read Aloud feature, simply **highlight the text you wish to have read to you, then right-click on the highlighted text**. Then click **Read aloud**

selected text. The highlighted text will then be read to you.

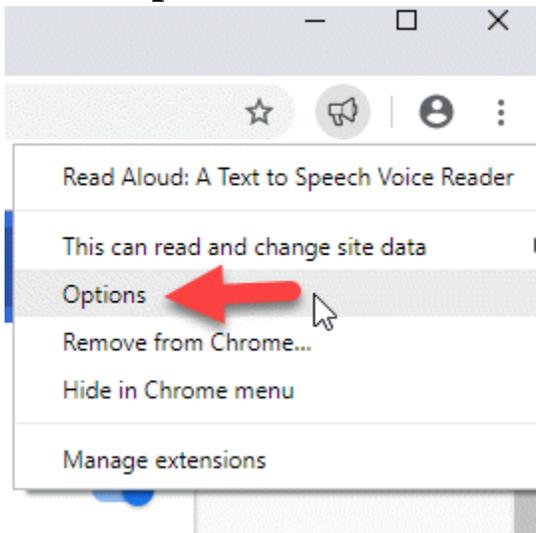

Read Aloud Options for Foreign Languages

1. **Read Aloud** had many customizable options. For example, Spanish text can be read aloud using a native Spanish speaking voice. It is recommended that you use this feature to hear the proper pronunciation of words in a foreign language. See instructions below to change the Read Aloud voice to a Spanish speaker...
2. The Read Aloud icon is located in the upper right corner of the browser. **Right-click** on the icon.

3. Select **Options** from the menu.

4. From the **Options** window, select the drop-down menu under **Voice**. Browse to the **Google español** voice option and click.
