

Interpreting Pictographs

A pro basketball team tracked it's slam dunks made over seven months.
Answer the questions based on the pictograph below.

- 1) If in any one month the team scores at least 60 slam dunks, they give out a signed basketball. Which months did the team give away a free basketball?
If that never occurred, write 'None'.

- 2) How many slam dunks were recorded in the month of October?

- 3) Were more slam dunks made in the month of September or in October?

- 4) During which month did this team have the fewest number of slam dunks?

- 5) During which month did this team have the greatest number of slam dunks?

- 6) In total, how many slam dunks did this team score in the tracked months?

- 7) How many slam dunks did the team get during June?

Name : _____

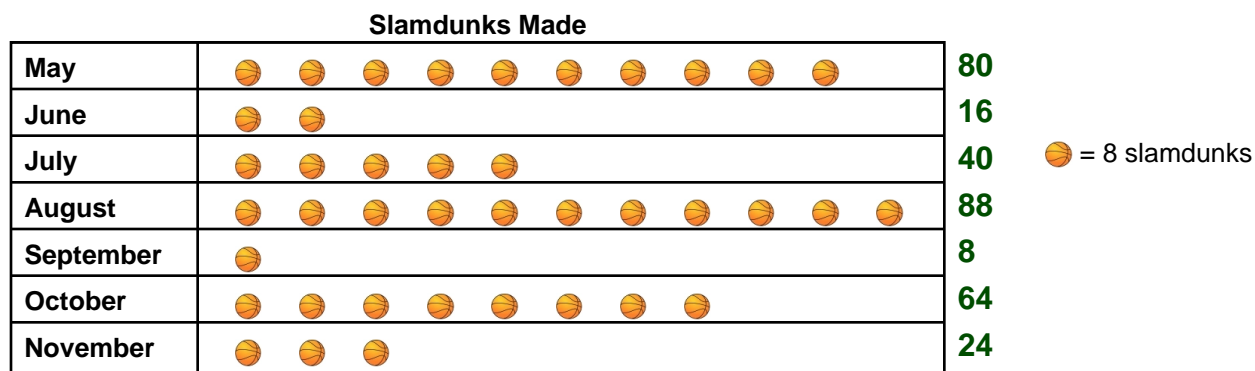

Score : _____

Teacher : _____

Date : _____

Interpreting Pictographs

A pro basketball team tracked it's slam dunks made over seven months.
Answer the questions based on the pictograph below.

- 1) If in any one month the team scores at least 60 slam dunks, they give out a signed basketball. Which months did the team give away a free basketball? If that never occurred, write 'None'. May, August, October

- 2) How many slam dunks were recorded in the month of October? 64

- 3) Were more slam dunks made in the month of September or in October? October

- 4) During which month did this team have the fewest number of slam dunks? September

- 5) During which month did this team have the greatest number of slam dunks? August

- 6) In total, how many slam dunks did this team score in the tracked months? 320

- 7) How many slam dunks did the team get during June? 16
