

Student Measuring Activity

Measure the length, width, and height of everyday items

You will need:

- A ruler (for smaller items)
- A tape measure (for larger items)
- Pen and paper

Measure using millimeters (mm) or inches (in). Try to do both if you can.

Measure the following items (including three others that you find):

- Paperclip (width)
- Fork (length)
- Pencil (length)
- Chair seat (height)
- Table (width)
- Door (width)
- Door (height)

Item	Guess	Actual
Paperclip (width)		
Fork (length)		
Pencil (length)		
Chair seat (height)		
Table (width)		
Door (width)		
Door (height)
