Math 130
Unit 25
Questions 1 – 9

Five children recorded their minutes of reading for five days. Organize their time on the table and then find the total time for each child. You may put the names in the table in any order you choose. If they read more than 60 minutes, you will have to change 60 minutes into 1 hour.

Organize this information in the given table.
Abigail read 10 minutes Monday, 15 minutes Tuesday, 20 minutes Wednesday and Thursday and she didn't read at all on Friday.

Casey read 15 minutes every day.

Jonathan read 20 minutes Monday, 10 minutes Tuesday, 25 minutes Wednesday, and 30minutes on Thursday and Friday.

Leah read 30 minutes Monday, 10 minutes Tuesday, 60 minutes on Wednesday, 30 minutes on Thursday and 25 minutes on Friday.

Richard read 20 minutes every day except Friday. Friday he read for 60 minutes.

Names	Monday	Tuesday	Wednesday	Thursday	Friday	Total
