

MATH170U29

Linear and Nonlinear Progressions, Functions, Graphing Functions, and Linear Equations Question 13

Print out the coordinate plane. Graph the five ordered pairs found in problem #12 and draw a straight line through the five points.

- Write the ordered pair for the point where the graphed line crosses the x -axis.
- Write the ordered pair for the point where the graphed line crosses the y -axis.
- Write an ordered pair for another point on the line that is not listed in the table.
